ANNUAL REPORT OF NSS REGULAR ACTIVITIES FOR 2018-19

INTERNATIONAL YOGA DAY

International Yoga Day 2018:

Yoga is an age-old practice that boosts the **Physical, Mental and Spiritual** well being. Ever since the United Nations declared **June 21** as the International Day of Yoga in 2015, it has created quite a lot of buzz all across the globe. Although yoga training is now a part of pop culture, its roots can be traced back to pre-Vedic era when yogis spent years meditating in one pose.

As custom activity, we Lendi's **NSS Volunteers** initiated **International Yoga Day** activity in our whole college. Honorable, **Chairman Sir P Madhusudhan Rao** took part in the activity by presenting some asanas. Whole college student members took an active part in this activity. All the interested candidates are assembled in the seminar hall and participated in the yoga for the **whole afternoon session**.

Our program officer **Dr. Y Narendra Kumar**, actively initiated the program and **motivated** many of the students regarding the importance of Yoga on the occasion of International Yoga Day.

Dathri Blood Stem Cell Program-*Hope to Live With*

Cancer is a disease that is haunting from years which has no cure and makes life no hope to live with. Genetic changes that cause cancer can be inherited from our parents. They can also arise during a person's lifetime as a result of errors that occur as cells divide or because of damage to D.N.A. caused by certain environmental exposures.

We the NSS volunteers took a step forward to help the people affected with cancer. We invited a N.G.O. named DATRI on 23rd June, 2018 which is striving to help those people since 2009. This organization collects the D.N.A. samples and matches them with the cancer patients. We organized a camp to help them motivate us and make us understand the importance of being a helping hand.

Nearly 500 members have been registered including students, teachers, and non teaching-staff as well and gave our D.N.A. samples. We joined hands with DATRI and gave a hope to someone who needs us.

Awareness program on Organ Donation

What is organ donation and transplantation?

Organ donation is the process of surgically removing an organ or tissue from one person (the organ donor) and placing it into another person (the recipient). Transplantation is necessary because the recipient's organ has failed or has been damaged by disease or injury.

Organ transplantation is one of the great advances in modern medicine. Unfortunately, the need for organ donors is much greater than the number of people who actually donate. Every day in the United States, 21 people die waiting for an organ and more than 120,048 men, women, and children await life-saving organ transplants.

We Lendi NSS volunteers had succeeded in creating awareness among the students by conducting workshop on promoting "Organ Donation" LIVE LIFE GIVE LIFE with association with NSS-Dr.NTRUHS under the guidance of our vice-principal Dr.T.HariBabu and our program officer Dr.Y.Narendra Kumar.
