NATIONAL SERVICE SCHEME

Introduction

The National Service Scheme was started to establish a meaningful linkage between the

campus and the community. Mahatma Gandhi, the Father of the Nation, had recognized that the

country could not progress in the desired direction until the student youth were motivated to

work for the upliftment of the villages/community. For Gandhiji the villages, where the majority

of the population lived, represent the country i.e. India. Therefore, for the national reconstruction

and national resurgence, it was deemed fit that the students and teachers should be properly

sensitized and utilized for strengthening the Indian society as a whole with particular emphasis

on the rural community. Therefore, student youth, teachers and the community are considered

the three basic components of the National Service Scheme.

Hence Lendi's NSS Unit puts its mission a pace forward on the practice of the

above-said service.

Aims of NSS Programme and its activities at Lendi Institute of Engineering

and Technology:

The operational aim of NSS is to integrate the three basic components of the program

those are student youth, teachers and the community. Lendi's NSS program provides a variety of

learning experiences which may develop a sense of participation, service, and achievement

among the volunteers.

The activities aim at the following:-

☐ Making education more relevant to the present situation to meet the felt needs of the

community and supplement the education of the university/college students by bringing

them face to face with the rural situation;

Providing opportunities to the students to play their role in planning and executing

development projects which would not only help in creating durable community assets in

rural areas and urban slums but also results in the improvement of quality of life of the

economically and socially weaker sections of the community;

NATIONAL SERVICE SCHEME

- ☐ Encouraging students and non-students to work together along with the adults in rural areas;
- developing qualities of leadership by discovering the latent potential among the campers, both students as well as local youth (Rural and Urban), with a view to involving them more intimately in the development program and also to ensure proper maintenance of the assets created during the camps;
- ☐ Emphasizing dignity of labor and self- help and the need for combining physical work with intellectual pursuits;
- ☐ Encouraging youth to participate enthusiastically in the process of national development and promote national integration, through the corporate living and cooperative action. While undertaking these activities, each NSS unit should envisage its programs/activities aimed at instilling discipline, building character, promotion of physical fitness and development of culture.

Special Camp and its Importance:

The special camp is a mission in which all the NSS volunteers take the active participation spending 7 days with all the villagers, creating awareness in day to day needs and emerging them with the current technology needs. We also learn to maintain a relationship with all fellow citizens.

Being a part of NSS events, special camp plays a major role. A 7 day program was conducted this year.

Initiation took by the NSS Unit for Special Camp:-

On the direction given by the Coordinator NSS JNTU KAKINADA, in view of allowing the volunteers about the overall objective of NSS i.e., Education through community service and service through education NSS Unit of Lendi Institute of Engineering and Technology has taken the initiation to conduct the Special Camp at Duvvupeta, a hamlet of adopted village Jonnada to bring awareness on disaster management, trauma care-initial counseling, school-education dropouts etc...
